Planned provisional dates for Options Open Days

Arranged for flyer design and printing and hall bookings

Adhered carefully to the Steering Group's legitimate activity - 'How', not 'What'; and reported back to the PC – NP is exactly on track in terms of budget, and behind on time.

Now: We're investigating the conditions relating to sustainability, within which the entire NP must be prepared.

United Nations General Assembly has defined 'sustainable development' as: meeting the needs of the present without compromising the ability of future generations to meet their own needs

National Planning Policy Framework sets 5 principles governing sustainability applying to all planning:

- 1) Living within the planet's environmental limits;
- 2) Ensuring a strong, healthy and just society;
- 3) Achieving a sustainable economy;
- 4) Promoting good governance;
- 5) Using sound science responsibly promoting good governance = the action or manner of governing a state, organization, etc.

We need to plan now for the more responsive system of governance will be required by this PC

The first draft of the NP will follow on from the 'Open Days'. It will then be available to residents for comment.

All land can be considered; site assessment has to be done
